Ed , thanks for acknowledging the call and we appreciate EPA's attention to the position paper and look forward to discussing soon. We would still like to speak with you on other matters on Tuesday , if doing so some time works for you .

Please let us know

Thanks

Hi Paul,

Sorry I missed your call yesterday. I got your voice-mail message asking for a conference call next week to discuss the points you've made in your position paper. Although I've done my own research on the issue, I have not yet had a chance to discuss the matter with HQ and Department of Justice attorneys. I'd like the opportunity to do so before we can have a meaningful discussion. I'm hoping to be able to do so by the end of next week at the earliest or the week after (week of December 18).

Also, I appreciate you letting me know the week of December 18 will not work for a meeting with the EPA and the PRP Group. However, would a technical representative from the City and Severn Trent be available to meet the EPA On-Scene Coordinator, Adam Adams, and the PRP Group's Project Coordinator for a site walk on Wednesday, December 20, of the former wastewater treatment plant? Having them available would be invaluable given their much greater familiarity of the property. The site walk would be with technical representatives only. Neither I nor any of the PRP attorneys will be at the site walk. Please let me know if a representative from one or both would be available for this.

Thanks,
Ed Q.

Subject: POTW Position Paper- USOR Site

Greetings Ed-

Following up on our conversation, attached is the position paper we discussed.

The City of Pasadena and Severn Trent Environmental Services would appreciate EPA's prompt review and consideration of these issues. After you have had an opportunity to review and consider the attached , please let us know if we can arrange a time to visit-

on both the paper and the points in your email yesterday.

Thanks

Paul M. Seby
